Natural Pebble Pool Finish

Make Your Pool an Exotic Oasis!

CrystalStones...A New Era in Pool Surfacing

Natural Finish...Brilliant Colors

CrystalStones elegantly combines the unparalleled beauty of natural pebble aggregates with brilliant colors. This with unmatched durability, creates a unique, stunning poolscape environment.

Each individual stone that is used in the CrystalStones formula has been specially selected for its size, smoothness and luster, resulting in a final pool surface product that is consistently appealing. Crystal Stones is a magnificent alternative to traditional plaster and exposed aggregate finishes.

The feel of a CrystalStones finished pool evokes an exotic, adventuresome sensation, unlike anything you've ever experienced. And the colorfast pigments transform any pool into a faraway, sunlit south seas lagoon.

In a word...it's intoxicating.

Colorful, Playful...

Go ahead, let yourself go -- with the allure of a CrystalStones pool. Then just relax, because the proven reliability of the CrystalStones formula means years of carefree beauty.

CrystalStones delivers and etch resistant surface that can be applied using traditional or sprayed methods. This also provides one of the industry's easiest-to-maintain pool finishes.

The new age of pool technology is here, ushered in by CrystalStones.

Committed to Leading the Industry

**Manufacturers of specialty cement products,
focusing on swimming pool finishes and deck coatings**
